

## “Creating Miracles”

Miracles as defined here are acts of creation. They are the manifestation of anything one desire’s. Miracles occur when the conditions for such are met. Many of the conditions necessary for the miracle are within our capability to meet. First and foremost however we have to believe and have faith. Once our part is complete, which includes raising our faith to the degree necessary, we turn it over to the Creative Force of the Universe for fulfillment.

The Creative Force of the Universe follows the direction our conscious mind gives it by way of our thoughts. Whatever the conscious mind impresses upon the Creative Force it does, for it cannot do otherwise. This is how we are co-creators of our life experiences.

“Ask and it shall be given unto you.”

Because we are human and living on the Earth plane we have a need for a physical process to bring about what it is we desire. The following steps are the process we can follow to create miracles in our lives.

1. Define the miracle with as much clarity as possible. What is it you desire or want to experience?
2. What conditions must be met for the miracle to occur?
3. Of the conditions necessary for the miracle to occur, which ones currently exist? What conditions need to be created?

4. Of the conditions not yet met, which do you control or can you personally affect?
5. What conditions are you *willing* to create and build on to allow the miracle to occur?
6. Take initial action by communicating your desire to the Creative Force of the Universe (Spirit, GOD, Supreme Being) clearly and with conviction. This is done through thought, prayer and meditation. What man accepts, GOD creates.
7. Create the conditions you can and are willing to create.
8. As you fulfill your part in the creation process get out of the way. Have Faith that what you desire is created. Stay the course by allowing only supportive thoughts into your mind. Allow the miracle to occur naturally without attachment to the outcome. Let the creative force of the Universe fulfill its role in the creation of the Miracle.
9. Know that what you receive might not be exactly as you asked, and it might not be received in the exact way you thought. However, it will be exactly what you need in the way it is needed.
10. Accept what you receive in the way it was delivered. If there are further steps that need to be taken (that appear to be obstacles) understand they are for your further growth and expansion, and are a part of the miracle you have been given.
